

Invoice2go Reviewers' Guide

What is Invoice2go?

Invoice2go is the most straightforward invoicing app for small businesses. Win jobs, track payments, and give customers more options to pay so you get paid faster.

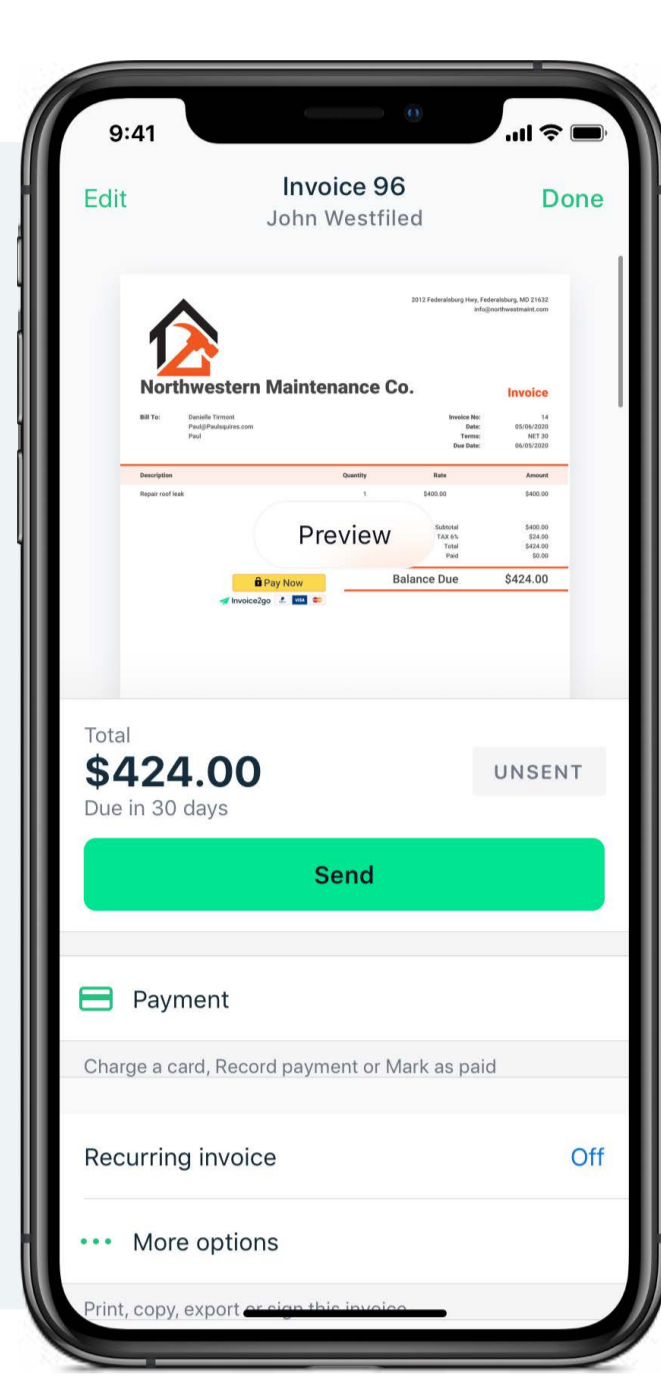

Who uses Invoice2go?

Invoice2go is designed specifically for the world's smallest businesses across all industries – from electricians and landscapers to photographers, creative freelancers and more.

Invoice2go was started by a small business owner who came from a family of tradespeople who wanted a better way to invoice.

Key Invoice2go features & benefits

Invoice in minutes

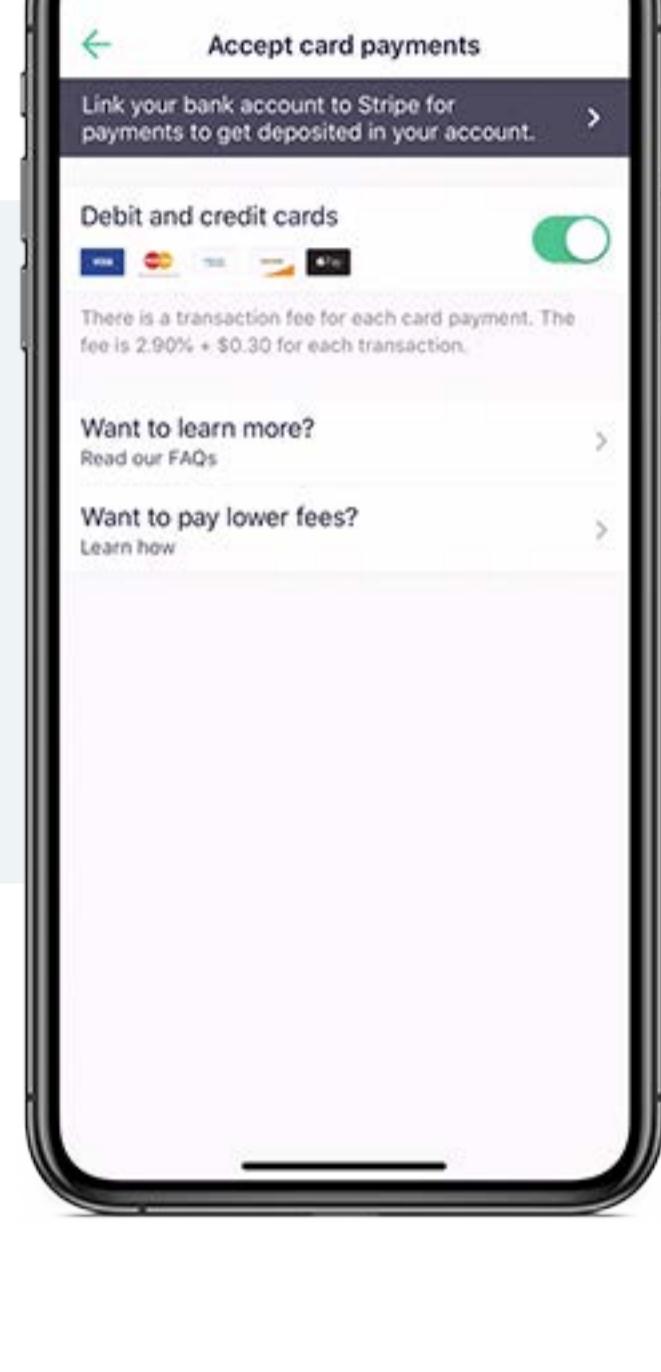

Create and send professional invoices in minutes from your phone, tablet, or computer. Get it done right when you finish the job.

Four easy steps:

1. Choose your client or contact
2. Select or enter your product or service
3. Enter the quantity and rate
4. Preview and send

Win more jobs with professional looking estimates

Send estimates with deposit requests directly from your mobile while still on site to secure the job.

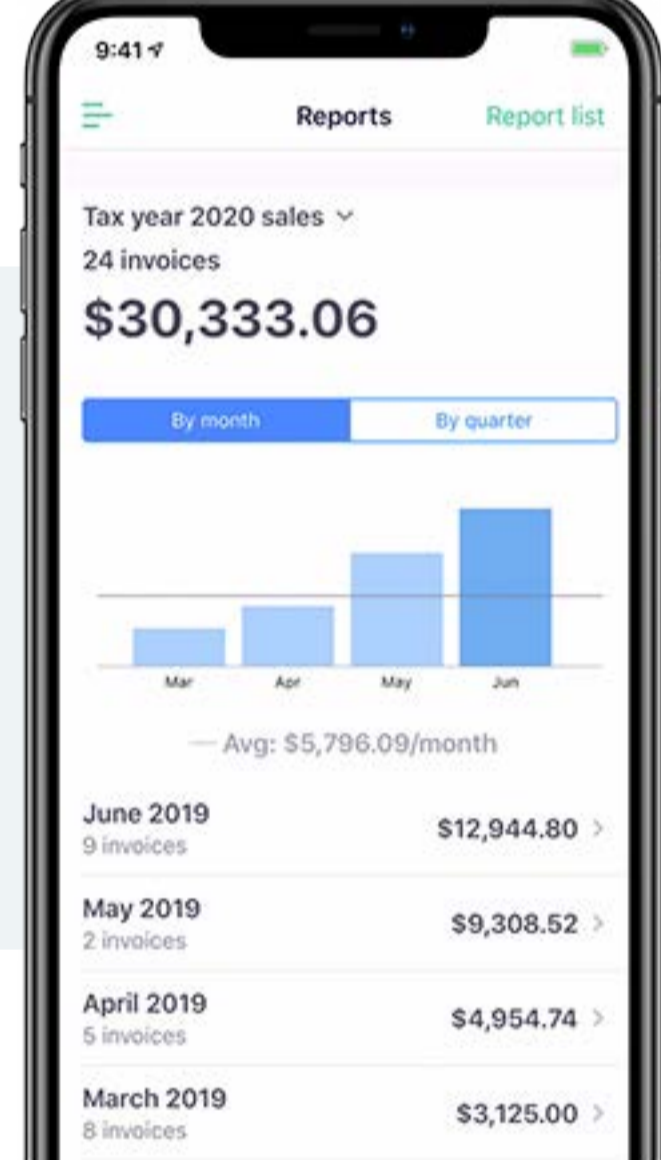

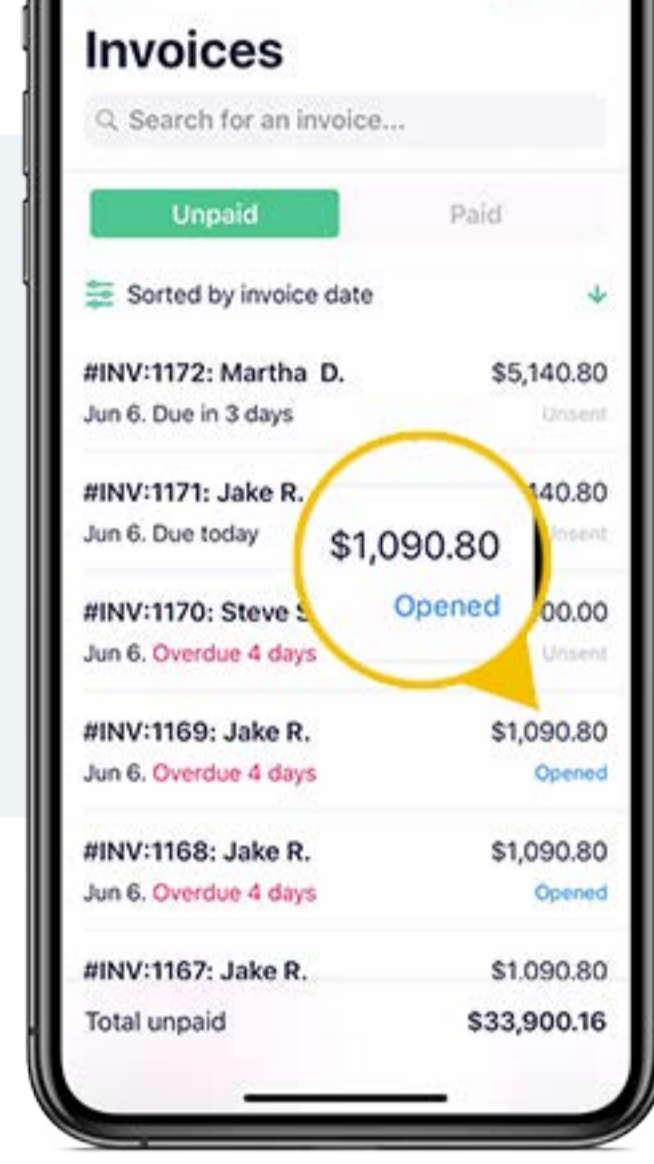

Accept card payments, ACH bank transfers, PayPal and Venmo

Let your clients pay securely online directly from the invoice.

Get notified when your invoices are opened

Never wonder whether a customer saw your invoice, and know the right time to follow up.

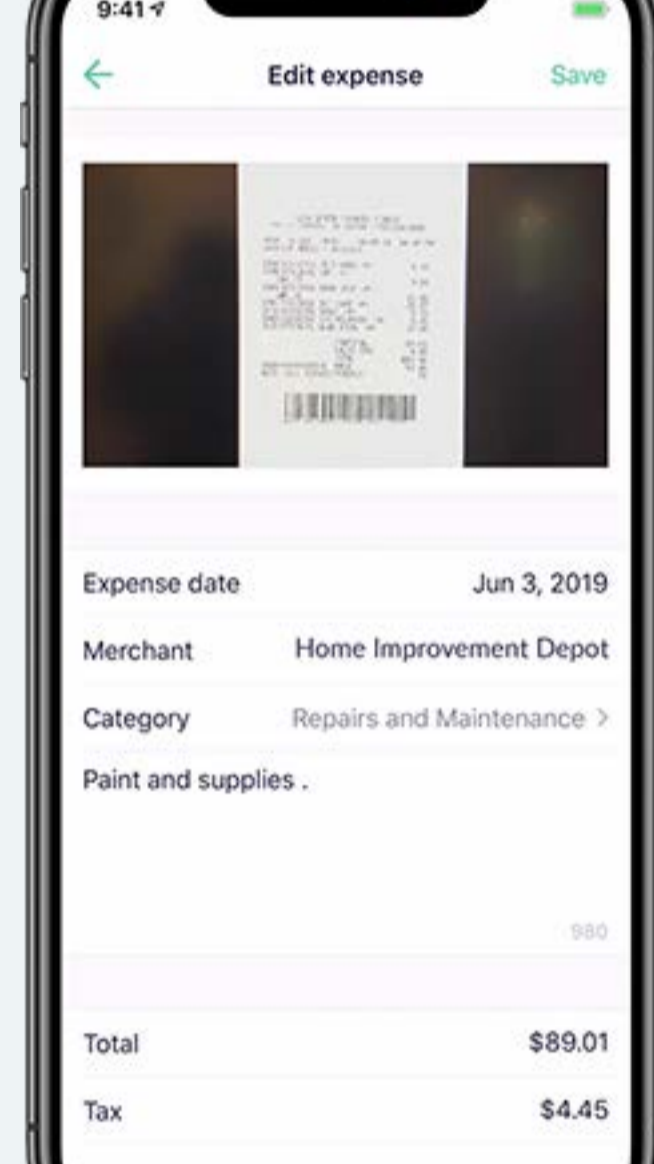

Business performance at a glance

Track how your business is doing with easy-to-use charts and graphs. Export and send your activity to your accountant at tax time.

Other useful features for small businesses on the move

- **Capture expenses** - Snap a photo and manage your expenses while on the go.
